

Information related to Regulation G

Ziggo Group Holding B.V.:

Ziggo Group Holding B.V. (Ziggo), a wholly-owned subsidiary of Liberty Global plc, is a broadband communications operator in the Netherlands.

Segment operating cash flow (Segment OCF) is a non-GAAP measure as contemplated by the U.S. Securities and Exchange Commission's Regulation G. Segment OCF is the primary measure used by Ziggo's management to evaluate operating performance. Segment OCF is also a key factor that is used by Ziggo's internal decision makers to (i) determine how to allocate resources and (ii) evaluate the effectiveness of its management for purposes of annual and other incentive compensation plans. Segment OCF should be viewed as a measure of operating performance that is a supplement to, and not a substitute for, operating income, net earnings or loss, cash flow from operating activities and other GAAP measures of income or cash flows.

A reconciliation of Segment OCF to the most directly comparable GAAP financial measure is presented below:
