Information related to Regulation G

Telenet Group Holding NV (Telenet):

Telenet is a leading provider of media and telecommunication services. Its business comprises the provision of cable television, high speed internet and fixed and mobile telephony services in Belgium. For purposes of its standalone reporting obligations, Telenet prepares its consolidated financial statements in accordance with International Financial Reporting Standards as adopted by the European Union (GAAP).

Adjusted EBITDA and Free Cash Flow are non-GAAP measures as contemplated by the U.S. Securities and Exchange Commission's Regulation G. Telenet believes that its presentation of Adjusted EBITDA provides useful information to investors, as Adjusted EBITDA provides a transparent view of Telenet's recurring operations and is a key measure that is used by Telenet's chief operating decision makers to evaluate operating performance and to decide how to allocate resources.

Telenet believes that its presentation of Free Cash Flow provides useful information to investors, as this measure can be used to gauge Telenet's ability to service debt and fund new investment opportunities. Free Cash Flow should not be understood to represent Telenet's ability to fund discretionary amounts, as Telenet has various mandatory and contractual obligations, including debt repayments, which are not deducted to arrive at this amount.

Investors should view Telenet's Adjusted EBITDA and Free Cash Flow as supplements to, and not substitutes for, operating income (loss), net profit (loss), cash flows from operating activities and other GAAP measures of income or cash flows. A reconciliation of Adjusted EBITDA and Free Cash Flow to the most directly comparable GAAP financial measure is presented below (amounts may not total due to rounding):

(a) Telenet defines EBITDA as profit before net finance expense, the share of the result of equity accounted investees, income taxes, depreciation, amortization and impairment. Adjusted EBITDA is defined as EBITDA before stock-based compensation and restructuring charges, and before operating charges or credits related to successful or unsuccessful acquisitions or divestitures.

(b) Telenet defines Adjusted Free Cash Flow as net cash provided by the Company's operating activities, plus (i) cash payments for third-party costs directly associated with successful and unsuccessful acquisitions and divestitures and (ii) expenses financed by an intermediary, less (i) purchases of property and equipment and purchases of intangibles as reported in the Company's consolidated statement of cash flows, (ii) principal payments on amounts financed by vendors and intermediaries, (iii) principal payments on capital leases (exclusive of network-related leases that were assumed in acquisitions), and (iv) principal payments on post acquisition additions to network leases, each as reported in the Company’s consolidated statement of cash flows.
