

## Information related to Regulation G

### UPC Holding Group (UPC Holding):

UPC Holding is a wholly-owned subsidiary of Liberty Global plc.

Segment Adjusted EBITDA and operating free cash flow (OFCF) are non-GAAP measures as contemplated by the U.S. Securities and Exchange Commission's Regulation G. Segment Adjusted EBITDA is the primary measure used by UPC Holding's management to evaluate its performance. Segment Adjusted EBITDA is also a key factor that is used by UPC Holding's internal decision makers to evaluate the effectiveness of its management for purposes of annual and other incentive compensation plans. OFCF is an additional metric used by UPC Holding's management to measure the performance of its operations after considering the level of property and equipment additions incurred during the period. Reconciliations of Segment Adjusted EBITDA and OFCF to the most directly comparable GAAP financial measure are presented below for the indicated periods:
